WORLDVIEW EDUCATION FAIR

Worldview's flagship recruitment event; WOLRDVIEW EDUCATION FAIR is celebrating its 8th anniversary this year and remains Africa's leading education fair.

Worldview has an exciting year ahead; we will coordinate over 10 international student recruitment fairs and workshops in 12 different countries across Eastern, Western, Northern and Southern Africa in 2018, while our student recruitment portal, www.findadmission.com will connect institutions with 1000s of African students every month. Worldview's objective as a company has always been to assist education institutions from across the world, to increase their international students' intake from Africa. We have and we continue to deliver our objective through a range of annual events in Ghana, Nigeria, Cameroun, Ivory Coast, Kenya, Morroco, Egypt, Tunisia, Algeria, South Africa and United Kingdom.

In this brochure, you will find detailed information about our market-leading African student recruitment fairs, agent workshops and high school visits. If you do not have the time to travel, we also offer a range of virtual recruitment fairs and also digital marketing options including newsletters, webinars and email marketing. Worldview's clients include universities, colleges, high schools and educational agencies looking to tap into Africa market. We also work with several national government-supported education agencies such as the British Council, Campus France, Study in Turkey, Education Canada, Education USA and many more, who have over the years chosen Worldview as their partners and event organisers.

Each of these organisations enjoys fantastic experiences at our events and more importantly, an excellent value for money. We are proud of our achievements over the years and also proud to welcome our partner institutions and clients back, year on year. We are glad to be called the African Student Recruitment Experts. Our second to none expertise and knowledge of Africa is what your institution need to increase the number of your international students from Africa substantially.
